TESTING FREQUENTLY ASKED QUESTIONS

<u>Summary Overview</u>: The updated AEPA testing program, sometimes referred to as the Arizona educator exams, now consists of two kinds of tests:

- AEPA customized tests. These tests were developed specifically for the state of Arizona.
- NES® (National Evaluation Series™) tests. The NES is a nationally available teacher certification testing program with tests that are aligned to profession-accepted national subject and pedagogy standards. *Effective March 1*, 2013, NES tests are the official tests to fulfill many subject knowledge testing requirements for Arizona teacher certification.
- All tests in the program, both custom AEPA and NES, address areas covered by Arizona state standards.

<u>Computer-based testing (CBT):</u> All NES tests and AEPA custom tests are computer-based. A CBT design means access to tests by appointment, year round—examinees do not have to wait for an assigned date before testing.
